FHWA Briefly: Who are we?

Money: About $40B Federal Highway Funds

Legislated Mission: “...provide for a strong and vigorous national economy...” 23 USC 101(b) (and associated regulations)

What we aspire to through our Mission: Improve Mobility on our Nation’s Highways Through National Leadership, Innovation, and Program Delivery.

What the public expects: Safety and fiscal integrity, emergency response...
Federal Funding

FHWA Focus: Bridge Loading Rating and Posting
NDDOT currently re-load rating all bridges in the state.

When change in load posting is required (new process):

- NDDOT sends bridge owner letter [revised] to correct posting deficiency.
- 90-day requirement for owner to respond to NDDOT with adequate resolution.
- If no response returned, a second letter is sent to owner with a 30-day expected response time.
- If no response, MAP-21 allows Federal funds to be redirected to correct the problem; costs could be applied to current/or future County funds.
• “Full Oversight” language is no longer used for new federal oversight projects
• Existing “Full Oversight” projects will continue with federal oversight until they are closed out
• Now called Projects of Division Interest (PODI)
Common Project Pitfalls

Do these things to avoid pitfalls on Federal-aid contracts:

- Keep your haul tickets (approved contractor daily haul summary is a source document)
- Retain sampling and testing results to support material certifications
- Request and retain Buy America certifications
  - 2014 NDDOT Spec Book: 106.08 BUY AMERICA
- Meet DBE project goals
- Document field books
• Do these things to avoid pitfalls on Federal-aid contracts:
  – Identify “Employee in Responsible Charge”
    • http://www.fhwa.dot.gov/federal-aidessentials/catmod.cfm?id=15
  – Project Development: Proper railroad coordination and required certification
    • http://www.fhwa.dot.gov/federal-aidessentials/catmod.cfm?id=10
• Acquire right-of-way under the Uniform Act
• Adhere to the MUTCD; 23 CFR 655, Subpart F
• If the National Highway System, adhere to standards in 23 CFR 625
• If Federal-aid is used in any phase, then applicable environmental requirements need to be complied with throughout the project
• Section 106 of the National Historic Preservation Act, Section 7 Consultation of the Endangered Species Act, and Section 404 of the Clean Water Act may still apply if an action is needed by another federal agency.

• Buy America applies if under a National Environmental Policy Act (NEPA) decision, regardless of funding source, if at least one contract within the scope of the same NEPA document is funded with Federal funding provided under Title 23.
