

ISIGHT RPV SERVICES

A BETTER PERSPECTIVE

ABOUT ISIGHT RPV

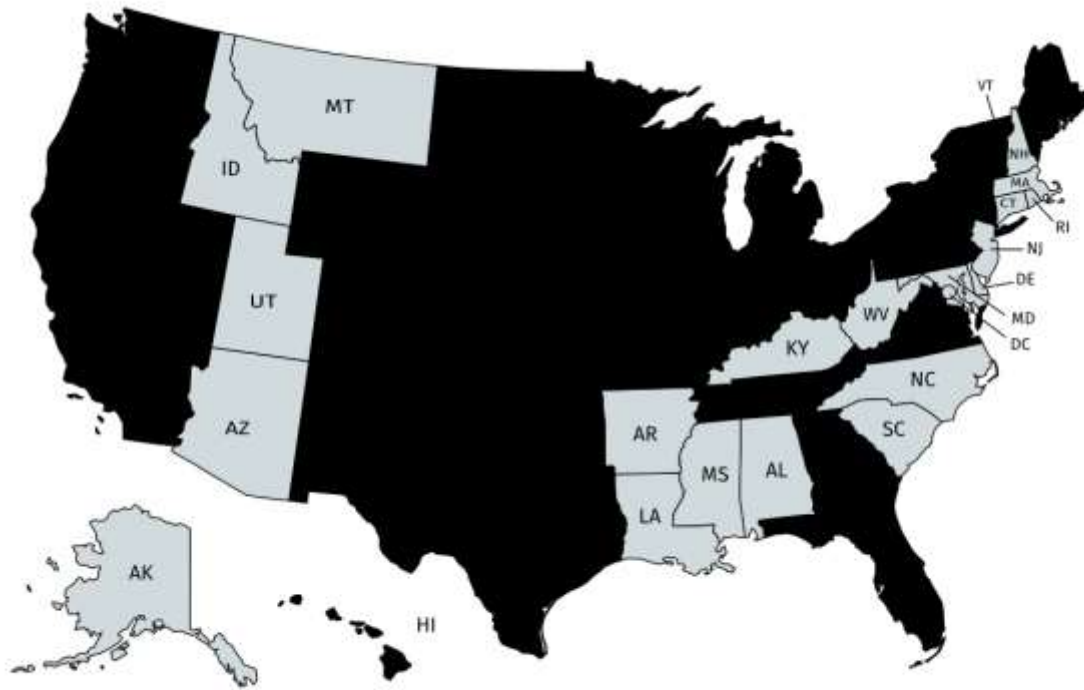

- ISight RPV Services provides Remotely Piloted Vehicle operations (data capture, topographic surveys, inspections) for a myriad of clients and customers.
- Our operational focus is on critical energy infrastructure, agriculture, wildlife management, insurance and emergency services.
- Merged with the Unmanned Applications Institute to “broaden our bench” and capitalize on synergies between the two entities to grow our client base and continue to provide top notch service to new and existing customers.
