Draft - ND Asphalt Conference

Applying the right tool at the right time and in the right place is a common theme for the asphalt industry and serves as our guide for this year's North Dakota Asphalt Conference.

The conference's overarching theme, "Asphalt Solutions - The Innovation Matrix," will focus on cost-conscious, performance curve...
enhancing initiatives. Please join us on March 28th and 29th in Bismarck!

As budgets decline, these initiatives will help us meet the challenges of improving the state's road systems while initiating maintenance plans that preserve the recent dramatic investment in that North Dakota's infrastructure. Pavement performance curves are a tool to help us select innovative projects with the best return on investment (ROI).
