

“NDLTAP and the Road Scholar Program are great learning resources. I have learned gravel specs and different techniques of how to do things. I like that the training includes people from all different counties so that we are able to interact and share information. If you miss a class you can watch the recorded video of it in the NDLTAP archives. Earning Road Scholar credits and being awarded for learning is a plus.”

– Dennis Glas, McIntosh County

NORTH DAKOTA LOCAL TECHNICAL ASSISTANCE PROGRAM

THE ROAD SCHOLAR PROGRAM

The North Dakota Local Technical Assistance Program's (NDLTAP) Road Scholar Program is designed for road and highway practitioners in North Dakota. It recognizes each participant's achievement in subjects and topics essential to efficient and effective local road maintenance and management.

Participation in the Road Scholar Program will increase your knowledge and awareness of how and why the road system must be properly managed. The ideas, knowledge, and skills gained through the training will help on you the job, strengthen your agency, preserve the roadway infrastructure, and reduce the cost of maintaining roadways.

LEVELS OF TRAINING

Level I – Achieved at the completion of 30 credit hours with a minimum of 5 courses.

Level II – Achieved at the completion of 90 credit hours.

Level III – Achieved at the completion of 150 credit hours and complete one of the following leadership opportunities:

- hold a Lunch and Learn
- assist with an LTAP training
- develop a training course
- serve as a mentor

WHAT COURSES ARE OFFERED?

Basic workshop short courses offered by NDLTAP and additional Transportation Learning Network (TLN) courses supported by LTAP will qualify as required core courses and elective courses. These courses are posted on the NDLTAP website: (www.ndltap.org).
