

ROAD SAFETY & TEMPORARY TRAFFIC CONTROL

On-site
6 Hours – Road Scholar Credits

October 24, 2018 (Wednesday) ND Farmers Union State Office Bldg., 1415
12th Ave NE, Jamestown ND

9:00 AM – 4:00 PM CST

Registration Deadlines: October 17, 2018

This program provides an understanding the of the following

- The principals of temporary work zone traffic control
- How to use the Manual of Uniform Traffic Control Devices (MUTCD) in the development of a traffic control plan
- When it is needed to post roads for different projects
- How to reduce the liability of the organization

Bruce Drewes: began his career in transportation over 32 years ago as a pipe layer for a construction company in Idaho. After being buried in a trench twice, he successfully pursued a career with the Idaho Transportation Department (ITD). As a project manager for ITD, he became involved with OSHA and MSHA requirements for construction. For the past 9 years he has been involved in the Safety Fest of Northwest as a founding partner and instructor. Bruce is currently a contract instructor, providing safety related programs across the U.S. with a focus on local agencies.

Target Audience: Motor-Grader operators, road supervisors, signing personnel, maintenance personnel, contractor, consulting engineers, project managers and safety officers.
