May 9, 2019 (Thursday) 8 a.m. – 4 p.m. MT (9 a.m. – 5 p.m. CST)

City of Dickinson Public Works Bldg., 3411 Public Works Boulevard, Dickinson, ND

Registration Deadline: 1 week prior to workshop

\$25 Registration Fee. Fee covers instructor fees and printed training materials
(NDLTAP will invoice post-training)

Those involved in work zone projects should have a basic knowledge of temporary traffic control so that they can help install traffic control devices, monitor their performance, recognize deficiencies during the course of a project. This knowledge will help them work safely protect others in a work zone.

The one-day Work Zone Safety course provides:

- an introduction to temporary traffic control in work zones for individuals who work in the field
- approaches for installing/removing traffic control devices and working within a work zone
- concepts, techniques and practices in the installation and maintenance of traffic control devices
- tips for recognizing hazards in the work zone
- an overview of liability issues
- instruction on the importance of uniformity in the work zone and how to achieve it

Instructor: Shawna Page. Shawna is the Field Training Professional for Montana LTAP. Shawna has more than 28 years of experience in private and public sector construction, safety training and program coordination. Her expertise is safety training, including Flagger Certification, Traffic Control Supervisor, Work Zone Technician, Pilot/Escort Operations, Lead RRP Training, Asbestos Awareness, Hazardous Waste Awareness, OSHA 10 and 30 and First Aid/CPR Training.
