Course Learning Objectives: After completing this course, participants will be able to:

- Explain the need for making roads safer
- Separate safety myths from reality
- Demonstrate how to “read the road”
- Describe practical and low-cost countermeasures to improve safety, both on existing roads and during the design stage
- Identify ways to plan, implement, and fund low-cost safety measures
- Identify effective ways of encouraging communities to make their roads safer

Instructors:

Denise Brown. Program Manager for NDLTAP. Denise has been employed with the North Dakota Local Technical Assistance Program (NDLTAP) for 14 years. She serves on several national committees and has attended several trainings and train-the-trainer sessions on roadway safety. Denise’s passion for roadway safety focuses on getting everyone home safely every day.

Bryon Fuchs. Assistant Local Government Engineer for the NDDOT. Bryon graduated from NDSU and is a registered professional engineer. He previously worked for a consultant for three years and has worked for NDDOT for 16 years in Materials and Research and Local Government.

Mark Verke. Member Services Representative for the North Dakota Insurance Reserve Fund. Mark is a Certified Playground Safety Inspector (CPSI) and performs on-site liability surveys, teaches Defensive Driving courses, and provides other training to members of the fund. Mark has been employed with the NDIRF since April 1991 and been a member of the NDLTAP Advisory Board since 1993.

Target Audience: motor-grader operators, road supervisors, county commissioners signing personnel, maintenance personnel, contractor, consulting engineers, project managers and safety officers.

This program is offered with sponsorship from FHWA, ND Department of Transportation, Western Dakota Energy Association, ND Insurance Reserve Fund, ND Township Officers Association, the Northland Chapter of the American Traffic Safety Services Association, and ND chapter of the American Public Works Association.
