\$50 Registration Fee (fee covers instructor fees, lunch, and printed training materials)

NDLTAP will invoice post-training

Registration Deadline: 1 week prior to training

Everyone involved in construction work-zone projects should have basic knowledge of temporary traffic control that allows them to assist in installing traffic control devices, monitoring their performance, and recognizing deficiencies during the course of a project.

The TCT course is an introduction to temporary traffic control in work zones for individuals who work in the field installing and removing traffic control devices. The course provides concepts, techniques, and practice exercises in the installation and maintenance of traffic control devices.

There will be no testing as this is not an ATTSA Certified Course.

INSTRUCTOR:

Shawna Page is the Field Training Professional for Montana LTAP. Shawna has more than 30 years of experience in private and public sector construction, safety training, and program coordination. Her expertise is safety training, including Flagger Certification, Traffic Control Supervisor, Work Zone Technician, Pilot/Escort Operations, Lead RRP Training, Asbestos Awareness, Hazardous Waste Awareness, OSHA 10 and 30, and First Aid/CPR Training.
