February 16, 2022 (Wednesday) 9 am – 3 pm (CST)

City of Bismarck Public Works Building

601 South 26th St, Bismarck ND

FEE: \$25.00 (covers cost of refreshment breaks, instructor fee, and printed materials)

Lunch sponsored by RDO Equipment

Registration Deadline: Wednesday, Feb.9

North Dakota public agencies deal with winter weather many months of the year. This training examines current methods of winter maintenance on the local transportation system as well as some newer technologies. The goals of this course are to:

- provide an overview of current winter maintenance practices
- review essential elements of a winter maintenance policy and who should know those elements
- identify tools for winter maintenance
- examine benefits/concerns with those tools on both paved and gravel roads

Motor-grader best practices. Gary Steiner, Burleigh County Operator

Operators will participate in a group discussion and demonstrate best practices of snow removal using the motor-grader which will be available on-site for training.

Snowplow truck best practices. Ross Hanson, Morton County Operator

Operators will participate in a group discussion and will demonstrate best practices of snow removal using the snowplow truck which will be available on-site for training.

NDDOT. Mike Watson, NDDOT Fleet and Equipment Supervisor, Bismarck District

Expertise provided on the following topics:

- Product selection for anti-icing and de-icing
- Provide expertise on truck calibration
- Provide the importance of snow equipment maintenance
- NDDOT will also provide hands-on training with **Bjorn Kleven, Force America** representative, focusing on the controller and calibration

Target Audience: County, state, township, and city maintenance personnel, supervisors, and county commissioners.
