Public Works Bldg
411 6th Ave SW
MANDAN, ND**

WHY

Chainsaws are among the most dangerous tools used in forestry, construction, public works, and landscaping. Proper training dramatically reduces the risk of severe injuries and ensures safer, more efficient work.

WHAT

- Saw inspection
- Proper saw handling and use
- PPE gear needed
- Power line issues
- Hazard Assessment

- *Field portion
 - How to attack or evaluate the job
 - Use of chainsaw

★ Anyone operating a chainsaw must bring or borrow the proper PPE gear for using a chainsaw during the field portion ★

WHO

Designed specifically for maintenance crews, municipal public works, streets/roads, parks, water utility and/or other city or county employees who engage in ground limb/vegetation debris removal, are exposed to common chain saw work hazards and the risks associated with chainsaw use.

LIMIT 20 PER CLASS

**REGISTRATION FEE \$50,
NDLTAP WILL INVOICE
AFTER CLASS**

INSTRUCTOR

ERIC EISENHOUR , TRAINING USA

Eric has over 20 years of experience in all general construction, working as a supervisor of crews, with special significance in safety and OSHA requirements.
