

30 People will die today in a Rural Roadway Departure – Let's save the people behind the numbers

FoRRRwD on All Public Roads: Funding and Data to Identify Projects

An FHWA EDC-5 Webinar

April 16, 2020

1:00-2:30 pm ET/10:00-11:30 am PT

Rural roadway departures make up a third of U.S. traffic fatalities—about 30 people a day. The Every Day Counts round five (EDC-5) initiative, Focus on Reducing Rural Roadway Departures (FoRRRwD), features four pillars: Addressing All Public Roads, Systemic Approach, Safety Action Plans, and Proven Countermeasures. This webinar focuses on the first pillar.

Rural Agencies and Tribes, come learn what you can do, where you are, with what you have, to reduce rural roadway departures. You can make a difference!

Speakers and Topics to be covered include:

- Bryon Fuchs, North Dakota DOT, will discuss funding the local road safety plan (LRSP), sharing HSIP funds with local agencies, and moving forward with projects from the LRSP.
- Stephen McCall, Champaign County, Ohio, will discuss how Champaign County initiated partnerships with Ohio DOT and other stakeholders to review safety data on all public roads within the boundaries of their county, resulting in the development of activities and projects that fed into their LRSP.
- Greg Parker, Johnson County, Iowa, will discuss how Johnson County has been proactive in evaluating their safety data to identify projects and partnering with Iowa DOT to reduce rural roadway departure crashes on all public roads.

This webinar is free and open to anyone who is interested.

Registration: Participants must register in advance at <https://collaboration.fhwa.dot.gov/dot/fhwa/WC/Lists/Seminars/DispForm.aspx?ID=2259> Space is limited. Please register as soon as possible.

Please Note: Non-USDOT employees who have never participated in an FHWA webinar must create an account at <https://collaboration.fhwa.dot.gov/FBA/MembershipRequest.aspx> in order to register for this webinar.
